

SIDE AND BOTTOM ENTRY MIXERS

RIGAL BENNETT GROUP - SE range of side and bottom entry mixers. Our high quality low maintenance design is suitable for low to medium viscosity mixing in mixer tanks from 4,000L to 100,000L capacity. Our mono block mixer is designed for flange mounting with seals to suit individual application. All contact parts are 316 grade stainless steel.

- Universal application.
- We offer a standard range of single speed inline geared mixers designed to be low in cost.
- We offer a range of belt drive mixers at extra cost.
- Our standard marine impellers give a powerful liquid stream to allow rapid uniform mixing throughout the vessel.
- Paddle mixer is suitable for slower speed liquid/slurry and solid suspensions.
- We offer a selection of mechanical seals or packed glands to suit each individual application.
- Under normal operation, our stirrers are low maintenance design for continuous duty.
- We are able to supply motors to suit your working environment.
- Different materials of construction for mixer shafts and elements are available on request.
- Principal Applications – food processing, soft drinks, colour, paint and oils, chemical, pharmaceutical and water treatment.

Please see table below showing our standard range of mixers.

MODEL	KW	SPEED	PHASE	MOTOR
GT11SE-63	1.1	30-400	3	TEFC/EXD
GT22SE-63	2.2	30-400	3	TEFC/EXD
GT40SE-63	4	30-400	3	TEFC/EXD
GT55SE-63	5.5	30-400	3	TEFC/EXD
GT75SE-63	7.5	30-400	3	TEFC/EXD
GT22ASE-63	2.2	30-400	3	AIR
GT75ASE-63	6.7	30-400	3	AIR
