

ENGINEERING SYSTEMS CONTROL

RIGAL BENNETT GROUP offer to **design and build control panels** to

suit both our equipment and tailored to meet the requirements of your specific application. From simple stop/start/isolate to speed control by digital programmable controller, temperature control to heat or cool a process, to advanced PLC programmable cycle control with facility to feed information to main frame process systems.

We can offer to provide a **complete installation** or provide supervisors to supervise your installation. This can be purchased separately. If you need **training** for your staff, our service engineers and technicians will provide operator training on all our products if required.

RIGAL BENNETT GROUP also offers to **service and repair** all equipment supplied by us. This can be a service at your location or for components to be sent back to Rigal Bennett Group for repair.

RIGAL BENNETT GROUP can offer a **planned maintenance scheme** as well as maintenance on demand or emergency rapid breakdown service.

**FOR PEACE OF MIND AND TO PREVENT COSTLY DOWNTIME,
CALL RIGAL BENNETT GROUP FOR EXTRA DETAILS.**
